### **Abstract**

The present study intends to define Hijan from viewpoint of Quran and it aims to answer this question that what the concept of Hijab from viewpoint of Shari'a is. In Quran, Hijab is divided into three kinds the most significant one of which is behavioral. In addition, Quran seeks to reform the individuals' way of talking and offer distinctive clothes for the people in society so as to prevent from the others' arousal. On the other hand ,it orders individuals not to be affected by others 'arousal.
